

Safer winter roads at lower cost
with less salt and sand usage!

Nitrous 1-2-3 Fires Up De-Icing Performance

Nitrous 1-2-3 is not a product, but a highly effective and safe deicing application strategy. The Nitrous 1-2-3 strategy involves the addition of high performance liquids to granular products to increase ice melting performance.

Through careful product selection and application, annual equipment, maintenance and clean up costs are reduced, and waste is minimized.

As easy as 1-2-3

Nitrous 1 involves adding 8-10 gallons of liquid de-icer to one ton of dry salt via on-board pre-wetting or by using treated salt.

Nitrous 2 involves adding 8-10 gallons of liquid de-icer to one ton of salt that has already been treated with 8-10 gallons of liquid de-icer.

Nitrous 3 involves adding up to 50 gallons of liquid de-icer to one ton of salt that has already been treated with 8-10 gallons of liquid de-icer.

De-Icing Benefits

- Salt works quicker, improving service and safety
- Salt works at lower temperatures reducing material wear and tear
- Reduces clean-up time which decreases labor, material and equipment costs
- Keeps material on the road which saves money and the environment
- Allows you to travel longer distances and optimize fleet and manpower
- Reduces equipment and infrastructure corrosion
- Economic and environmental sustainability

READY WHEN NATURE STRIKES. GUARANTEED.

Get your liquid program flowing

Let Innovative help you set up a Nitrous 1-2-3 liquid program designed to meet your specific needs. We provide the equipment and product training, and take a consultative approach to customizing your program.

Our Equipment Rental program includes:

- Liquid storage systems
- On board pre-wetting systems for any truck set up
- DLS application systems

All are simple, easy to install, and easy to use!

Warm-up quick to the cost

You can benefit from Innovative solutions regardless of your budget. When you invest in a liquid program, you'll save money on product and equipment. Plus, you'll never have to worry about your product supply - we deliver. You can expect:

- No capital expenditure
- Guaranteed dependability
- Attractive and flexible terms
- All for as little as \$1.00 per year!

Burn it off without burning your budget
